Acrylic, Brant Gebhart

Photography, Diane Seskes

Lake Health Motto

Quilt, Christy Gray

Photography, Ferole Parmelee

Acrylic, Mary Deutschman

## Lake Health TriPoint Medical Center

300,000 sq. ft. Art Count: 347 pieces., Art Budget: \$229,000.00 inclusive. Timeline: July 2008 – October 2009

**Architect:** Karlsberger, Columbus, Ohio

**Art Challenge:** TriPoint Medical Center wished to create a multimedia art program featuring local artists to enhance their healing environment through evidence and research based art selections. Selected artwork was to:

- Feature local artists in the Tri county service area
- Complement and integrate with natural exterior site elements and interior finishes
- Keep patients in touch with nature throughout their hospital journey
- Visually represent the hospital community and locale
- Reflect TriPoint's high tech profile and system wide adaptation of a Pause, Reflect, Heal philosophy

**Art Solution:** A combination of 347 multi media pieces of art were combined to reflect the warm wood and stone interiors while representing a wide spectrum of local art talent and depicting familiar images of Northeast Ohio.

**Rotating Gallery:** A rotating art gallery was established and featured in the Grand Concourse to the immediate right of the Main Entry. This gallery provided TriPoint with an ongoing opportunity to display current local artists' work. The opening event consisted of 14 pieces of original art including fiber art, photography, watercolor, pressed flowers and oil and acrylic on canvas by 10 local artists.
